

BLASTING PERMIT REQUIREMENTS

1. Provide a current Nevada State Fire Marshal's Certificate of Registration for Blasters.
2. Provide liability insurance in the amount of one million dollars with the City of Reno as certificate holder.
3. All magazines shall be stored off site at a location approved by the Reno Fire Department.
4. Blasting may be done during daylight hours only.
5. A water tender shall be on site.
6. Call dispatch at 334-2306 prior to blasting.
7. Blaster shall notify utility companies 24 hours prior to blasting.
8. Precautions shall be taken to minimize earth vibrations and air blast effects in congested areas.
9. Provide a one hour fire watch after blasting.
10. Comply with the provisions of Chapter 9 of NFPA 495 and Section 3307 of the International Fire Code.

A fire inspection must be conducted prior to the blast. Additional requirements are possible based upon the results of the inspection.
